

Knoll Materials

Recommended Complementary Wood & Veneer Palettes

Across the Knoll constellation, we bring wood to life

The Knoll constellation integrates modern design, craft and choice. When planning across the Knoll constellation, use the following suggested complementary palettes as an initial approach towards building an aesthetic across your entire space.

Next steps

Product swatches are available and will help when determining which finishes work best for a desired result. Please consult your local Knoll sales team for further information and to order product samples.

Please note that some wood finishes and colors are only available on select products. Please consult catalogue/price lists for availability.

Although every effort is made to complement finishes on solid wood edges with finishes or veneers, subtle differences may be visible. It is essential to order samples after reviewing this document to better understand the reality of working with these natural materials.
